ACADEMIC PROFILE

Interdisciplinary public policy graduate with academic foundations in Mathematics, Economics, and Public Policy Analysis. Experienced in social science research, policy analysis, and teaching quantitative methods using R. Research interests include data-informed policy making, infrastructure governance, institutional analysis, and development policy. Seeking advanced training in politics and data science to strengthen the application of quantitative and computational methods to complex public-policy challenges.

HONORS AND AWARDS

Russian Government Scholarship

Government of the Russian Federation | 2024–2026

Awarded a full tuition scholarship to pursue the Master's degree in Politics, Economics and Philosophy (Public Policy Analysis Track) at HSE University, Moscow.

Dean's Award for Academic Excellence

University of Cape Coast | 2017/2018 Academic Year

Recognised for achieving a perfect semester GPA of 4.00/4.00 during the first semester of the 2017/2018 academic year.

EDUCATION

Higher School of Economics (HSE), Moscow

Sep 2024 to Jun 2026

Master's in Politics, Economics, and Philosophy (Public Policy Analysis Track)

GPA 8.23/10

Master's thesis: *Institutional and Policy Challenges in Ghana's Railway Modernization : A Policy Network Analysis*

University of Cape Coast, Cape Coast

Sep 2016 to Jun 2020

BSc in Mathematics with Economics

GPA: 3.40/4.00

Classification: Second Class Honours, Upper Division

ACADEMIC AND PROFESSIONAL EXPERIENCE

1. Teaching Assistant – Data Analysis in Social Science, Higher School of Economics

Sep 2026 to Present

Moscow

- Support students with R programming during lectures and practical analytical activities.
- Explain data-analysis concepts, assignment requirements and approaches to resolving errors in R code.

- Provide individual and group tutorials that reinforce quantitative methods introduced by the lecturer.

2. Teaching Assistant – Comparative Social Policy, Higher School of Economics

Jan 2026 to Jun 2026

Moscow

- Reviewed student assignments and provided academic support on comparative social-policy topics.
- Prepared lecture presentations, bibliographies, reading lists and structured weekly course materials.
- Supported the lecturer with instructional content, student submissions and course administration.

3. IT & Data Analyst, Ghana Deluxe

Sep 2022 to Jul 2024

Accra

- Collected, cleaned and analysed customer and social-media data using R and Microsoft Excel.
- Examined engagement patterns and prepared clear analytical summaries to support communication decisions.
- Managed the organisation's website and supported data-informed publication and marketing projects.

4. Data Science Intern, University of Cape Coast

Aug 2021 to Aug 2022

Cape Coast

- Supported graduate research through data preparation and statistical analysis using R, Stata and SPSS.
- Cleaned and analysed quantitative datasets for academic research and instructional purposes.
- Prepared learning materials and supported students in statistics, data analysis and computing.

RESEARCH PROJECTS

1. Master's Thesis | HSE University | 2026

Sep 2025 to Jun 2026

Higher School of Economics, Moscow

Institutional and Policy Challenges in Ghana's Railway Modernisation: A Policy Network Analysis

- Investigated how institutional arrangements, actor networks and historical legacies influence railway-modernisation outcomes in Ghana.
- Conducted semi-structured expert interviews and thematic analysis using Policy Network Theory, the Advocacy Coalition Framework and Historical Institutionalism.
- Developed recommendations to strengthen inter-agency coordination, accountability and long-term railway governance.

2. Estimating Public Attitudes Toward Paying for Public Transport in Ghana

ResearchGate | [Link](#)

Feb 2025 to Jun 2025

Higher School of Economics, Moscow

Quantitative Research Project | HSE University | Stata | 2025

- Analysed World Values Survey Wave 6 data covering 1,552 respondents and recoded variables for statistical analysis.
- Applied descriptive statistics, binary logistic regression and marginal-effects analysis to examine fare-evasion attitudes.
- Translated findings on income, education and employment into recommendations on affordability, civic education and fare compliance.

3. Mini Project - Group Research Project | HSE University

Sep 2025 to Dec 2025

Higher School of Economics, Moscow

- **Mini Project - Digital Divide: Social and Cultural Aspect of Online Consumption**
- Led a six-member team conducting desk research on digital access, online behaviour and technology use.
- Coordinated research tasks and integrated contributions into a unified analysis and final presentation.

4. Graduate Term Paper | HSE University

2024 to 2025

Higher School of Economics, Moscow

DOI: <https://doi.org/10.13140/RG.2.2.29873.34406>

- Examined the policy, institutional and infrastructure challenges affecting the modernisation of Ghana's railway system.
- Assessed the potential contribution of standard-gauge railway development to national transportation, economic connectivity and regional development.

- Reviewed government policies, institutional arrangements and secondary literature related to railway-sector reform.
- Identified financing, coordination and implementation constraints affecting the delivery of railway-modernisation projects.

5. Global Superstore Sales and Profitability Analysis

Aug 2026 to Sep 2026

Independent Data Analytics Project | Microsoft Excel | Repository: [Link](#)

- Cleaned and analysed retail data using formulas, PivotTables, calculated fields and key performance indicators.
- Evaluated revenue and profitability across markets, product categories and customer segments.
- Designed an interactive dashboard and analytical report communicating trends and actionable findings.

6. Nigeria: Regional and Gender Educational Disparities

Feb 2026 to Apr 2026

Higher School of Economics, Moscow

Quantitative Policy Brief | Co-author: Agi Comfort Obahi

- Examined regional and gender inequalities in educational access and outcomes using secondary education data.
- Translated quantitative evidence into accessible findings, visualisations and targeted policy recommendations.

7. Political Participation and Trust in Political Institutions

DOI: <https://doi.org/10.13140/RG.2.2.26675.18722>

GitHub: [Repository](#)

Jan 2025 to Mar 2025

Higher School of Economics, Moscow

Group Quantitative Research Project | HSE University | R | 2025

- Analysed European Social Survey Round 11 data for 7,286 respondents across Sweden, Germany, Poland and Italy to examine the relationship between political participation and institutional trust.
- Used R to clean and recode survey data and conduct descriptive analysis, non-parametric tests, factor analysis and logistic regression with interaction and country effects.

TECHNICAL PROFICIENCIES

Programming and data tools:	R, SQL, C++, Stata, SPSS, Microsoft Excel and Basic Python
Statistical analysis:	Descriptive statistics, correlation analysis, binary logistic regression, marginal-effects analysis and survey-data analysis
Data management::	Relational databases, SQL joins, filtering, aggregation, data validation and preparation of analysis-ready datasets
Excel data analysis	PivotTables, Pivot Charts, lookup functions, calculated fields, KPI development and interactive dashboards
Research methods:	Research design, semi-structured interviews, thematic analysis, document analysis and literature reviews
Policy analysis:	Policy-network analysis, institutional analysis, stakeholder analysis and evidence-based policy writing
Research communication:	Academic reports, policy briefs, analytical presentations, data visualisations and academic tutoring

HOBBIES AND INTERESTS

Reading, Football, Music, Learning languages, Writing
